

The WastePack **Basic** (Plug and play) is the best choice of the restaurant and hospitality markets for the most advanced waste compactors and cardboard balers in the world.

WastePack **Basic** Compactor

A compactor that is ideally designed for fast food outlets. Replaces traditional trash cans and can eliminate the need to empty during breakfast, lunch and dinner rushes.

The WastePack **Basic** compacts waste at the point of generation (in the dining room). It is ideal for fast food restaurants, food courts, schools, company cafeterias and anywhere else that patrons dispose of their own trash. Compacting waste at its original point general reduces the cost of bag liners by up to 65% (3 >1)
Trash compactors reduce the number of trips needed by your employees and helps maintain a cleaner area for food consumption. Option: a motion sensor automatically opens the waste deposit door for convenient, sanitary, touch-less hands-free use. The WastePack **Basic** eliminates overflowing waste containers, ensuring a clean and safe environment at high peak times.

Cut your waste disposal cost, improve your employee morale and keep your restaurant or cafeteria cleaner, call us today at 0031-53-57-23-441 to learn more about our WastePack **Basic** compactor.
